five questions

one.

What if there was an idea that could fundamentally change your company for the better?*

***There is. And Splashlight® is it.** Our insight? Workers' comp costs are directly related to worker health. So we're changing the way companies approach workers' comp bill review—finding even more savings. We're helping companies invest part of their savings into an integrated health management solution—The Coaching Choice®

two.

What if this idea didn't cost you a dime?*

***We mean it.** Today's bill review companies focus on quantity, not quality. We're different. We focus on effectiveness rather than just on efficiency. We only succeed when we find you savings. So—naturally—we find you as much net savings as we can.

three.

What if the idea brought **more money** to your bottom line?*

***Because it does.** Our workers' comp bill review solution is simply more effective than anything available today. Reviewing the same bills as other companies, we typically find 25-35% more net savings. We don't rely solely on computer software to do the detective work. Our team of technical analysts has an average of 12 years experience conducting advanced bill reviews. This level of expertise helps them discover savings that computer software alone just cannot.

four.

And if that idea made your **employees healthier**?*

***We know — it's a ridiculously good idea.** Splashlight helps improve the health, and therefore the wealth of your company. First, we focus on reducing your workers' comp expenses. Then we invest some of those savings in an integrated health management program, The Coaching Choice®, that leverages technology, data analytics, and one-on-one coaching to help your high-risk and rising risk employees—*Transformative Ten*—get healthier.

five.

Opportunity is knocking.

Will you answer?*

***The password is Splashlight.** Let's talk. It's time to shine a brighter light on your company's overall health and wealth. It's time to start thinking differently about workers' comp and employee well-being. Because they really can be **better together**. Call me today at 515-298-7228. Or email lisa@splashlightsolutions.com.
